MARRIED

R RIPOUN - SSHIEMAN - At Welbinson, Oaks, March 16 of the Landship the Status of Honorain, Mr. J. A. Masons

GIFFAED-In this city, April 2s, 1879, at the residence, of malor, Mrs. Dudot, Rawson, will of Water N. Giffaet NOTES OF THE WEEK

Rain.-There was a two days rain at Kona and Kau, on Hawall, just week.

light concert at Emma Square, on Thursday eve-We call attention to the advertisements of

Mesers Wes M. Wenner & Co., and Mr. E. C. Me-Candless, to be found in another column of to day's [Attention is called to the advertisement of Messrs A. Kraft & Sons, is another column who come well recommended, especially as opticions,

which they make a specialty Ser advertisement of G. W. Macfarlane & Co. who offer for sale the cargoes of the elipper scips Latta Rookh, Dovenby, Stermy Petrel and Governor Goodwin, now on the way from Glasgow.

Lar The San Francisco Merchant, in its issue of March 28th, gave the Gazerre could for an article republished in the Merchant, which properly belonged to the P. C. Advertiser of which the latter complains. "Honor to wants honor is due" is our motto, so we hope the Merchant will be more careful hereafter to give the P. C. Advertior full credit for all its "thunder." We want none of it.

Opp Frinows' Ball -Saturday, the 26th inst., being the Sixtisth Audiversary of Odd Fellowship in the United States, it was observed here t obedience to the proclamation of the Grand Sire of the Order. The mombers of the Order anticipated the day by a grand ball at the Hawaiian Hotel, on Friday evening the Ebin lost. This was done because the Ebin come on Saturday. The ball and banquet at the Hawaiian Hotel on that occasion was well attended by the members of was in all respect a recherche affal

A NEW PAPER - We are in receipt of No. 4. Vol. I, of a well-edited and nestly printed newspaper. cotified "The San Francisco Merchant," devoted to the mercantile interests of the Pacific coast, pobished by the Sau Francisco Merchant Publishing Company, and edited by A. D. Beil, Esq. The Morehant is a spicy and ably conducted paper and will be a valumble acquisition to the newspapers of the coast. We have placed its name on our ex-change list, and shall be glad to welcome it always. We wish the new enterprise success.

CLOSE RUNNING -The American barkentine Ella, Capt. A. Brown, and the American back Forest Queen, Capt. Wallace, left San Francisco on their set trip for Honolulu on the same day, and about the same hour. It was supposed that the Forest Queen, which is a fire ship, with a reputation for very fact sailing qualities, much beat the Elfa to Hossiulu, but each was not the fact. The Elfa strived at the wharf in Honolulu some thirty-six hours before the Forest Queen, thus veri-time the sections of the forest pages. tring the scriptural sologe that "the race is not al-ways to the swift, nor bread to the wise, nor riches

The new steamers for Messrs. Wilder & Co. and Mesers. Feater & Co., intended for the interis land trade, will not be here before the latter part of May be 1st of June pext, as we learn from the Sat Francisco papers per steamer City of Sydney. The one for T. R. Foster & Co. Is being built at Port Ludiow, and the one for Mesers. Wilder & Co. at San Francisco, but both vessels, will receive their machinery at San Francisco. We will have something to say about them when they arrive, but in the mean time may add the fact that two steamers are to be added to those sireeds in the coastin trade of these Islands, argues well for the gro-trade and consequent prosperity of our people.

Accident with Fine Anns. - We regret to learn that a sad socident happened to a fittle son of Hon. W. C. Parke, at his home on Kokui street one day Bander on he's flower Queen from Sac Fran- last week. Master Parke who is about thirteen the Minima Migram, rose Hangking; and Ger back years of age and a neighbor's son were playing with a loaded gun, and in handling the trigger the piece was discharged, lodging the contents (a metaline cart-ridge containing a built in the side of young Parke. The ball is still in the boy's body, but so far no oue injury is anticipated by his physician. It is right. We hape that the accident may not be at-tended by any serious consequences, and that this experience will be sufficient to make the suffer-us well as all other boys, learn that fire-arms are dangerous playthings.

Macheaus & Unday's Bonglan and Firs Proof Sares.-We call especial attention to the advertisement of the above firm in another column, and to the fact that the special agent, Mr. C. O. Berger, is now here, who is ready to take orders for the celebrated safes immunfactured by Macuesie & Urban, of Cincinnati, Ohio, as also for platform scales, Holme's Electric Time Lock, Tucker's Alarm Tills and B and W Store Trucks. The safes of Macueale & Uroan have attained a world-wide reputation for possessing all the excellent qualities claimed for them, and therefore we have no hesitation in recommending them to our people, who, if they want a first-class article, should patronage the firm. Messes G. W. Mactariane & Co. are the local agents for sale of the foregoing articles.

DIPHTREEIA AND ITS CORE .- An English surgeon writes to the London Times that he has found the use of suiphur successful to the treatment of Diphtheria. His method is to employ the milk of sulphur in the treatment of infants, and flower of salphur for older children and adults, brought to s' creamy consistence with giscerine. Dose: a teaspecial or more, accircing to age, three or four times a day, swallowed slowly, and application of the same to the matrix with a sponger. All cases so treated recovered, and tile was saved when ordipary methods of freatment falled to check the progress of the disease. The knowledge of this simple and safe remedy will be invaluable in places where a payrician can not promptly be had to take charge of this too often falal disease.

CONCERT AT KAWATAHAO CHURCH .- A concert will be given by amateur Hawalian singers at Ka waishao church, on next Saturday evening, May Sd, the proceeds of which are for the benefit of the congregation worshipping in Manoa Valley, their building being blown down it is their purpose to erect a new one. The favorite Hawalian Songstress Miss Julian Walanika will assist upon the occasion, which announcement in itself is sufficient to ensure a crowded bouse here where her musical abilities are so well known and highly appreciated. We hope our citizens will extend to this concert a liberal patronage, and thus encourage a worthy object. Tickets can be precared at the offices of "Ko Hawaii Pac Ains" and "Kookoa" and at the door in the evening of the entertainment. Prices \$1 and 50 cents.

The United States steamship Alaska arrived to-lay from the lower coast. She left La Paz March st. She proceeds at once to Mare Island to take in es and coul, after which she will ceture to the borage off this city and remain a short while are saling for the Honolulu station.—See Fransee Alta, Murch 15.

We are informed by the most reliable authority, that on account of the little "ouplessantness" on the part of the Indians at Alaska, the order directlog the U. S. steamship Alaska to sail for Honoluiu, has been revoked, and she is ordered to Alsoks Territory to proceed in company with several other U.S. men-of-war, to keep "Lo" in sub-jection and prevent him from indulging in any of his savage accessments, to the great defirment and injury of the white settlers of that section. "Never too sair to do good," Uncle Sam.

PORTRAIT OF HIS MAJESTY. - The very fine por trait of His Majesty King Kalaksus, just finished by the eminent artist Mr. Cogswell, is a rare work of art, and should be seen by all our citizens before it is removed from the studio of the artist. It is not only a perfect likeness of His Majesty, but in style and finish it will compare with any of the old masters. Mr. Cogswell is a true artist and a master of his profession, and in his portrait of the King of the Hawaiian Islands, has added much to his already well established reputation as an artist of the first class. The portrait of His Majesty is a two-third life size, representing His Majesty in full uniform. We fully concur with the P. C. Advertier in the following remarks and suggestions, as eminently proper, and hope they may be adopted

It is not often that an artist of Mr. Cogswell's abilities visits these Islands, and it would be very desirable if his presence here could be improved by proceeding good portraits of the intree last Kamehamehas and Lunailin, as well as those of the late Ministers Judd and Wylie, with which to ornament the walls of the new pulses shortly to be erected.

The monthly meeting of the Maile Social ub will be held to morrow evening. May lst, at

again resumed the agency of the popular American ewing machine. Those in want of a first-class rticle in this line will do well to give him a call before purchasing.

The Missionery brig Morning Star will sale rom this port on or about the loth of June next. Those wishing to send letters or transact other business through the Morning Star, will note the time fixed for her departure.

Co Monday evening last a couple of Chinasome opium, and after the bargain had been con ted, were pounced upon by two or three hasin who represented themselves as policemen. Too latter of course took the Celestiais in charge too having uplum in their possession, but were willing to compromise the little difficulty for a money consideration, which John readily agreed to. The latter, however, did not seem to reish the loke, and sought reilef at the hands of the police, wherenpon the would-be-policeness were all arrested, and the matter will undergo an investigation this moraling in the Police Court.

KANEHAMEHA DAY .- By reference to our adverising columns will be found the programme of the Kapiolani Park Association, for the lith of June, 1879, which is gotten up with great care, in order that the arrengements may be as complete as pos-sible. The association have mide, as the programm will show, the most ample arrangements for the comilert and convenience of the public, with full committees to carry them out to the letter, and no doubt they will be extried out. We refer our readers to the programme for full particulars and feel warranted in saving that the lith of June, 1879, will be a gain day at Kapholani Park, long to be remembered by the people of Hawaii ret. All that is required to give emphasis and sext to the programme is for the citizens to second the efforts of the association, and the amusements will be all that the most fastidious could desire.

THE VOLCANO. - A note from the former editor of this paper, Mr. H. M. Whitney, received by the steamer, states that "the crater of Kilanen was very active on the evening and night of Sanday, April 30, during which the light of its fires could april 30, curing which the light of its fires could be seen distinctly at Kealwa, and other parts of Kan, 25 or 20 miles away, and even much farther at sea. The old cauldron was tremendously agitated for some twelve nodes, during which the high embankments aurrounding the south take as high as Puncobowi hill, all tumbled in, and nearly every trace of the large hill which has been forming around it since the great outbreak of 1868,—has disappeared. The central part of the large crater has also become filled up nearly level, by recent frequent streams of lava, so that the whole bed of the crater is now, as it was before 1868, comparaerater is now, as it was before 1868, cor tively level. Singularly enough, no carthquakes have been felt in this viriality for months, and since Sanday night. (April 20) no snoke or light at Ki-lanca has been seen from here."

We are sorry to learn of the rapid growth f the "hoodlum" element in Honolula. This is to be greatly regreted, for the reason that it increase the difficulties, already great, in the proper training of children in this city. Young people generally, more readily sequire a knowledge of that which is bad than the good, and frequently the sound moral training of the home circle is vitlated by the exam-ple of immoral and bad associates, when the child is away from the influences of its Christian home. The congregation of young people on Smith's bridge is a nuisance, greatly complained of by the quiet and peaceably disposed of the neighborhood, and calls for the rigitance of the police force, who should disperse the crowd at that locality. There are doubtless other places in this city, where gathering at these young boodlums is a nuisane indee compelled to pass them. We are informed that their conversation at times is of the most biasphemous and disgusting character. We hope the authorities will investigate this condition of things, and if found to be correct stop its spread if roughly the control of the cont

Miss Woodward's Boarding School For You've Labres. -In another column will be found the advertisement of the boarding school for young ladies, located at Harrisburg, Pa., U. S. A., to which we call the attention of our citizens who have daughters to educate. Miss Woodward, the principal of the above school, is a native of Massais, who has resided many years in Harrisburg. Pa., where she has been one of the most successful teachers. She possesses rare qualifications for her calling, gitted with a kind disposition, thoroughly educated and conscientions in everything, she has devoted her life to her profession with a real and intelligence that has brought her success, and secured for her the love and respect of her numbs their names and entitles. being under the constant supervision of a lady who is not only a first-class teacher but a mother in everything that regimes mother; care. The school is located in one of the forcilest spots in the United States, surrounded as it is with the most beautiful and romantic natural scenery, and where the citimate is healthful and invigorating. We know whereof we speak and can recommend Miss Woodward's boarding school as one of the best, if not the wery best in the States. If any of the citizens of these states have described in the States. islands have daughters whom they wish to send abroad to be educated and well cared for, we know of no place superior to Miss Woodward's at Harris-burg. Any one Wishing information as to terms, etc., will receive all necessary particulars by calling upon or writing to the Editor of the Gazerra.

News Items.

Jules Perry's Education bill provides that accordmg to existing laws, foreigners are not allowed to teach in France, and declares the same exclusion should apply to an Order essentially foreign by the character of its doctrices, nature and sim. The character of its doctroos, nature and nim. Ine passage priers to the Jesuits, who have twenty-even colleges in France with 340 feachers. Twenty-six other communities having sixty-one establishments and 1057 teachers, are also unrecognized by the State. Many moderate Republican papers, including the Constitutionnel, oppose the Higher Education bill. The semi-official organ at Rome, Voce wella Verita, the semi-united organ at home, roce area review, denounces the hill. It says the Republic has become the negation of liberty and the seems of the dearest feelings of the great majority of Frenchmon. It has therefore no langer any resson for existing. The Wigan rolling mills, one of the largest iron manufacturing concerns in Lancashire, England, has

magnaciating successing Lancastire, hogiand, has suspended payment.

Becently at Fayetteville, Arkansas, John Reed, a Union man during the civil war and of desperate character was killed in the County Jail. A friend of his, for infraction of the law, had been arrested. For some hours Reed followed the officer in charge of the man, and finally followed him to the jail, about dark as he was committing the prisoner to the cast days as he was committing the prisoner to the castody of the jailer. Reed, although able to had his friend, refused to do so. He entered the jail with the ufficer and prisoner, and just as the door was about to be looked Reed strack the jailer with a heavy junk buttle, knocking him senseless. Reed was armed. The jailer in failing extinguished the randle, and the guards, knowing Reed's character, fired upon him in guards, knowing Reed's character, fired upon him in the dark, one shot penetrating his heart. The Corothe dark, one shot penetrating his beart. The Coroner's jury was unable to determine which shot killed him the guards themselve being mable to tell. The jury found a vertical of justifiable homicide. Reed's friends, afteen or sixteen miles distant, began to organise for the avowed purpose of sening Denuty Sheriff Startell, whom they supposed of the day he for the startell whom they supposed for the day he for the seniors. Sheriff Serrell, whom they supposed fixed the fatal shot, and who was under bond to appear at the next term of the Circuit Court. The citizens of Fayette-ville became much alarmed at the threat, and acked and received permission of the Governor to organize a company of State Guards, which, in the emergency, was capplied with rides from the State University at Fayetterille, the State furnishing ammunition. Recei's friends meantime had approached the town. but floding the militis in arms, abandoned the town, but floding the militis in arms, abandoned their purpose, left their guns outside, and coming into the town organized a meeting, at which resolutions were adopted denouncing the course of the authorities. No political question was involved in the matter, though old animusation of the war were revived. All is now and will probably remain online and will probably remain quiet.

Terrible prairie fires recently occurred in Republic and Cloud counties, Kansaa. They extended over a an area ten miles long and three wide, and swept everything before them. It is said that about one hundred houses were consumed, also large quantities number houses were consumed, also large quantities of grain, farming implements, hay and other property. The winds were so high and the fires so Seroe and hot that the inhabitants were obliged to take ratuge in underground habitations. One life is reported lost.—Mrs Borrersor, who was burned to death while attempting to release some horses from a burning stable. Several other persons were severely injured. The loss is estimated at \$40,000. Pinto, the Portuguese explorer, who has crossed Africa, telegraphs: "I struggled with honger, thirst, natives, foods and drought." I have saved all my papers, comprising twenty geographical charts, many topographical maps, three volumes of notes, metocological studies, drawings and diary of complete explorations of the upper Zambezi, with its

eventy-two cularacts. Twelve bundred of the people of Szegedia have taken refuge at Lemesvar. Fire bundred and sixty-seven families and 242 single people have taken ref-nge at Mako. None of these miss relatives. Six

blind leggers reached Lemesvar.

The King of Burmah is constructing fortifications The King of Burmah is constructing fortineations and making other warlike preparations. The Burmese residents at Rangoon have been summoned home, the King threatening to have their families executed in case of non-compliance. The Khedire has yielded to the demand of Rivers Wilson and M. De Rigarieres for the retension of Rias Pasha as Minister of the Interior. The crisis is thus virtually ended. NEW ADVERTISEMENTS.

ELECTRIC LIGHT!

The Electric Light vs. Gas Companies.—The announcement that Mr. Edison has discovered a means for dividing the electric current indefinitely, thereby making it possible to use electricity for lighting small areas, has had a marvelous effect in bringing down the value of gas stocks. The stock of the Chartered Gas Company of London, for example, has been depreciated in the market between five and ten million dollars, if we may trust a statement made before a recent meeting of the company. At an auction sale of gas atock in New York clay on the 16th of last October, shares of the New York Gaslight Company, that on September 11th last, brought 91%, sold for 78%. Shares of the Manhattan Company that sold for 200% in September went for 140%. Whether this enormous falling off in value in six weeks in to be charged entirely to the fear of electric competion does not speam in lar decline is noticeable in other pinces.

For further particulars concerning Mr. Edison's won-For further particulars concerning Mr. Edison's won-derful invention, we refer you to the Scientific American, of March 3, 1878.

As we are not yet quite prepared to furnish our cus-tomers with the "Ricetric Coll" in quantities to suit, we offer in its stead the next best thing.
